Robo Slalom

Description

Roboticists must build and program a mobile robot that will slalom through flags. When the robot crosses the finish line it will celebrate by singing a song.

Rules

1. The robot must go around the outside of the flags.
2. A robot that hits a flag will be disqualified.
3. A robot that is touched by an operator once the program has started will be disqualified.
4. The robot that completes the course in the fastest time is the winner.
