Errata, Clavano et al., 2007:

Equations 19 & 21 should have read (e.g. equ. 2.5 in, Kohanovsky, A. A., 2004. Light Scattering Media Optics, Springer Praxis, 299pp.):

$$C_b = \frac{k^4 V^2 |m^2 - 1|^2}{6\pi} \qquad (19)$$

$$C_c = C_a + C_b \qquad (21)$$

For other, consistent and more classic approximations see equation 2.7 (Op. Cit.).
