I brought it down while it was still pumping, so it had a minute or ten of pumping at port level

3

4

Same as 2.

5

It began 30 sec before I started to get it up. Thomas and Doug had to come out to help me put it up.

6

Due to safety reasons, I left the sampler over night. Still need to figure out how to bring the sampler up and down by myself safely.
