

Standard shipment shown below.

12-bottle Carousel
(Note: When feasible, frame is shipped assembled; however, feasibility depends on shipping size limitations for particular destination)

CTD extension stand (for attaching to Carousel frame with included U-bolts)

17120 or 171090 sea cable extension cable (leave extension connected to instrument, & make sea cable connection at end of extension for easy access)

17198 SBE 32 to 9plus, 17plus, or AFM

90199 vertical CTD replumbing kit (to convert CTD plumbing for vertical CTD orientation when used without Carousel) – photo not available

50113 (small frame) or 50116 (large frame) spare hardware kit – photo not available

50092 jackscrew kit

Software, & electronics copies of software manuals & user manual
