

## Sea-Bird Electronics Training for Data Collection in the Ocean

### Table of Contents

#### **Module 0 - Introduction**

Topics Covered by Course .....	2
Introduction: Ocean Profiling.....	8
Oceanographic Terms and Parameters .....	10

#### **Module 1 - Introduction to Profiling Equipment**

Overview.....	2
Profiling Products: SBE 911 <i>plus</i> , 19 <i>plus</i> V2, 25, 25 <i>plus</i> , and 49 .....	3
Specialty Profiling Products: SBE 52-MP, Glider Payload CTD, SBE 41/41CP .....	5
Real-Time Profiling: SBE 911 <i>plus</i> .....	6
Internally Recorded Profiling: SBE 19, 19 <i>plus</i> , 19 <i>plus</i> V2, 25, 25 <i>plus</i> .....	7
Conductivity, Temperature, and Pressure Sensors .....	8
SBE 19 vs. SBE 19 <i>plus</i> / 19 <i>plus</i> V2, Sensor Placement .....	9
Calculating Memory Capacity and Battery Endurance .....	10
SBE 9 <i>plus</i> / 11 <i>plus</i> Telemetry.....	14
Modular Sensors.....	15
SBE 9 <i>plus</i> End Cap Connections .....	17
Real-Time Operation for Internally Recording Instruments .....	18
Water Sampling Equipment .....	19
Water Sampling in Real-Time for Internally Recording Instruments .....	22
Autonomous Water Sampling .....	23
Autonomous Operation for SBE 9 <i>plus</i> .....	25
Autonomous Profiling: SBE 41 and 41CP .....	26
Activity - Install Seasoft and Course Data .....	27

#### **Module 2 - Setup and Acquiring Data**

Overview.....	2
SeatermV2: User Interface for Internally Recorded Instruments .....	3
Activity - Collect Data with CTD .....	8
SeatermV2: Headers and Uploading Stored Data .....	11
Activity - Upload Data from CTD .....	14
SeatermV2: Capturing ASCII Data.....	15
Seasave: Real-Time Data Acquisition.....	16
Seasave: Setup of Instrument Configuration (.con or .xmlcon file) for Real-Time Acquisition.....	18
Activity - Create a Configuration (.con) File in Seasave .....	21
Seasave: Displays.....	22
Seasave: Displaying Archived Data .....	23
Activity - Display Archived Data.....	24
Seasave: Configuring for Real-Time Data Collection.....	25
Seasave: Saving the Setup.....	39
Seasave: Acquiring Real-Time Data .....	40
Seasave: File Types.....	41
Using Internally Recording Instruments for Real-Time Applications.....	45
Water Sampling with Internally Recording Instruments .....	47
Activity - Take a Bench Cast with Seasave.....	48
Auxiliary Sensors .....	49
Auxiliary Sensors: WET Labs ECO Example.....	50
Activity - View Archived Data with Seasave .....	59
SBE Data Processing: Data Conversion to Scientific Units.....	60
SBE Data Processing: Sea Plot .....	62
Activity - Run Data Conversion and Sea Plot .....	65

### **Module 3 - Data Conversion and Plotting**

Overview .....	2
Activity – View Archived Data with Seasave .....	4
Data Processing Flow Chart and User Interface .....	5
Data Conversion to Scientific Units .....	6
Activity - Run Data Conversion .....	14
Data Display: Sea Plot .....	15
Activity - Run Sea Plot .....	23

### **Module 4 - Water Sampling and Deployment**

Overview .....	2
Water Sampling Components – SBE 32 Carousel and SBE 55 ECO Water Samplers .....	3
Water Sampling with Internally Recording Instruments .....	5
SeatermAF V2: User Interface for Auto Fire Module (AFM) and SBE 17 <i>plus</i> V2 .....	6
Real-Time Data and Water Samples from an Internally Recording Instrument .....	14
Deployment Issues: Cabling, Grounding, Instrument Plumbing, Connections, Final Preparation, Soaking, Using CTD in Cold Places .....	16
Data Conversion and Bottle Summary: Correlating CTD Data with Water Samples .....	25
Activity - Run Data Conversion and Bottle Summary .....	31

### **Module 5 - Miscellaneous Applications**

Overview .....	2
Fresh Water Applications .....	3
Specific Conductance .....	4
Sound Velocity .....	5
Adding Navigational Data .....	6
Adding Surface PAR .....	7
Supporting Custom Sensors .....	8
Adding 9600 Baud Data Channel to 911 <i>plus</i> .....	9
Adding RS-232 Serial Output Interface to 911 <i>plus</i> .....	10
Thermosalinographs: SBE 21 and 45 .....	11
Thermosalinographs: Example Installation and Data .....	20

### **Module 6 - Making Measurements in the Ocean**

Overview .....	2
How Sensors Work and Sensor Response Times .....	3
Sampling and Profiling Rates .....	16
Estimating Conductivity and Temperature Resolution .....	19
Activity – Compare Resolutions .....	20
Coordinating Measurements in Time and Space .....	21

### **Module 7 - Getting the Highest Accuracy Data: Profiling Applications**

Overview .....	2
Thermometers: Drift and Care .....	3
Conductivity Sensors: Drift and Care .....	5
Oxygen Sensors: Drift and Care .....	9
pH Sensors: Care .....	14
Pressure Sensors: Care and Drift .....	16
Calibration: Converting Sensor Output to Scientific Units .....	18
Using Calibrations to Improve Data .....	28
Calculating Parameters with Seacalc III .....	39
Activity - Correct T and C using Pre- and Post-Cruise Calibrations .....	40

## **Module 8 - Getting the Highest Accuracy Data, Continued**

Overview .....	2
Field Calibrations .....	3
Field Calibrations: Pressure .....	4
Field Calibrations: Temperature.....	9
Field Calibrations: Discrete Sampling for Conductivity and Dissolved Oxygen.....	10
Field Calibrations: Conductivity .....	14
Field Calibrations: Dissolved Oxygen .....	22
Activity - Correct Conductivity with Water Samples .....	33

## **Module 9 - Advanced Data Processing**

Overview .....	2
Errors in CTD Data .....	3
Dynamic Errors .....	5
Data Processing Modules .....	13
Data Conversion .....	15
Activity - Convert Data .....	17
Filtering Data .....	18
Aligning Data .....	22
Activity - Align C and T Data .....	29
Aligning Dissolved Oxygen Data.....	32
Activity - Align DO Data .....	35
Compensating for Conductivity Cell Thermal Mass .....	37
Activity - Correct for Cell Thermal Mass .....	41
Removing Data Artifacts Induced by Ship Heave.....	43
Activity - Remove Ship Heave Effects .....	50
Ancillary Data Processing.....	52
Bin Averaging.....	53
Activity - Run Bin Average .....	59
Data Processing Tips.....	61
Data Processing Steps: SBE 911 <i>plus</i> , 19 <i>plus</i> /19 <i>plus</i> V2, and 25 <i>plus</i> .....	62
Batch Processing a Large Number of Files .....	65
Activity - Batch Process Files .....	72

## **Module 10 - Moored Instruments**

Overview .....	2
Introduction to SBE 16 SeaCAT Family.....	4
Introduction to SBE 37 MicroCAT Family.....	5
Introduction to SBE 43 and 63 Dissolved Oxygen Sensors .....	6
Introduction to SBE 39 Family and SBE 56 .....	8
Inductive Modem Telemetry .....	9
Inductive Modem Instruments – SBE 44, UIMM, and OEM Components .....	14
Clock Drift .....	20
Memory Capacity.....	21
Battery Endurance.....	28
Activity – Calculate Battery Endurance for SBE 37 .....	40
Resolution and Sampling Theory.....	41

## **Module 11 - Setup of Moored Instruments**

Overview .....	2
SeatermV2 and Seaterm: User Interface .....	3
Calibration Coefficients and Status Reports .....	6
Setting Date and Time .....	10
Pump Settings .....	11
Uploading Data .....	12
Activity – Collect and upload data with SBE 37 .....	14
Converting Sensor Output to Scientific Units .....	15
Headers and Data Formats .....	19
Activity - Convert and Plot Time Series Data .....	23
Auxiliary Sensors and WET Labs ECO Example .....	24
Anti-Foulant Paints .....	35
Changing Batteries .....	37
Checking Connectors and Cables .....	39
Preparing for Deployment and Sensor Checks .....	43
Preparing for Deployment: Pump Settings and Testing .....	49
Preparing for Deployment: Clean Data Collection and Plumbing .....	60
Preparing for Deployment: Deploying in Cold Places .....	62
Preparing for Deployment: Starting Logging .....	64
Preparing for Deployment: Inductive Modem Systems .....	65

## **Module 12 - Getting the Highest Accuracy Data from Moored Instruments**

Overview .....	2
Static Errors .....	3
Fouling and Instrument Malfunctions .....	5
Care of Sensors in the Field .....	9
Care of Sensors in the Field: Conductivity .....	11
Sensor Drift Characteristics .....	14
Correcting Data with Pre- and Post-Deployment Calibrations .....	16
Correcting C and T Data with Pre- and Post-Deployment Calibrations: Example .....	17
Care of Sensors in the Field: Dissolved Oxygen .....	19
Field Validation of Conductivity and Dissolved Oxygen Sensors .....	22
Lab Validation of Dissolved Oxygen Sensors .....	29
Field Validation of Dissolved Oxygen Sensors .....	32
Correcting Oxygen Data .....	35
Post-Recovery Maintenance .....	43
Activity – Validations .....	47
Care of Sensors in the Field: Dissolved Oxygen .....	51
Sensor Storage .....	58

## **Module 13 - Wave and Tide Instruments: Theory and Setup (reference only)**

Overview .....	2
SBE 26 and 26 <i>plus</i> Wave and Tide Recorder .....	3
Measuring Tides .....	5
Measuring Waves .....	6
Deployment Planning: Plan Deployment .....	20
Setting Up SBE 26 .....	26
SBE 26 Measurement Sequence .....	27
Setting Up SBE 26 <i>plus</i> .....	28
SBE 26 <i>plus</i> Measurement Sequence .....	29
Adding Conductivity .....	30
Battery and Memory Endurance .....	31
Deployment and Recovery Summaries .....	32
Removing Barometric Pressure from Tide Data .....	34
Troubleshooting SBE 26 .....	35
Troubleshooting SBE 26 <i>plus</i> .....	36

## **Module 14 - Wave and Tide Instruments: Data Processing (reference only)**

Overview .....	2
Separating Data into Wave Data and Tide Data: Convert Hex .....	3
Activity - Split .hex Data into .wb and .tid Files with Convert Hex .....	6
Processing Wave Measurements: Process Wave Burst Data .....	7
Activity - Run Process Wave Burst Data .....	13
Tabulating Wave Data: Create Reports .....	14
Activity - Run Create Reports .....	17
Removing Barometric Pressure from Tide Data: Merge Barometric Pressure .....	18
Graphing Wave and Tide Data: Plot Data .....	20
Wave and Tide Example .....	23
Activity - Run Plot Data .....	33

## **Module 15 – Troubleshooting**

Overview .....	2
Troubleshooting .....	3
Real-Time Systems .....	4
SBE 911 <i>plus</i> .....	5
NMEA Problems .....	23
Carousel Water Sampler .....	26
SBE 33 or 36 Deck Unit .....	28
Opto / NMEA Boxes .....	30
Internally Recording Instruments .....	32
Auto Fire Module (AFM) .....	36
Deployment Problems .....	37
Data Problems .....	38
Activity - Identify Instrument Damage .....	41
Activity - Troubleshoot Data .....	42

## **Module 16 – The Cruise: Before, During, and After**

Overview .....	2
Pre-Cruise Equipment Checks .....	3
Verify Functionality .....	14
Shipping Precautions .....	16
Moored Instruments and Anti-Foul Paint .....	17
Tools and Spare Parts .....	18
Care and Maintenance During Cruise .....	22
Flooded Instruments .....	26
Care and Maintenance After Cruise .....	29
Care and Maintenance after Moored Instrument Recovery .....	30
Storage After Recovery .....	31

## **Module 17 – Basic Maintenance of Sea-Bird Equipment**

Overview .....	2
Annual Maintenance .....	3
Lubricating Hardware .....	4
Electrostatic Discharge Precautions .....	6
Replacing O-Rings and Seals .....	7
Pumps .....	18
Replacing Bulkhead Connectors .....	21

## **Module 18 – Returning Instruments to Sea-Bird for Service**

Overview .....	2
Sea-Bird Contact Information .....	3
Information Needed by Sea-Bird .....	4
Battery Shipping Regulations.....	7
Service Scheduling and Authorization .....	9
Service Package .....	11
Service Turn-Around Times.....	13

## **Glossary**
