

## SBE 39 Temperature Recorder

*with faster upload, more memory, and  
improved clock accuracy — at the same low price*

Our specifications are not just derived from theory or undefined *testing*; every SBE 39 has a rigorous 11-point calibration. Our sensors meet *spec* and we *prove* it in more than 10,000 temperature calibrations (all products) a year in our computer-controlled, NIST-traceable lab. Then we back it with an industry-leading **5-year warranty**.

- Plastic & titanium construction never corrodes
- RS-232 interface plugs into your computer
- Optional external waterproof connector
- Optional pressure sensor
- Fast data upload — 466,000 samples (°C, decibars, & date/time) in 55 minutes
- Win 95/98/NT/2000/XP software package

### Specifications:

- Temperature: accuracy  $\pm 0.002$  °C, resolution 0.0001 °C, stability 0.002 °C/year
- Pressure: accuracy 0.1% of full scale range, resolution 0.002% of full scale range
- Real-time clock accuracy: 5 seconds/month
- Memory: 4 MB non-volatile FLASH
