

# Get More Data per Dollar on your Shallow Moorings

SBE 37 MicroCAT CTDs  
are now available with the  
*ShallowCAT* housing

*ShallowCAT* substitutes a 250-meter plastic housing for the standard titanium housing, saving money and weight.

5000 titanium MicroCATs used worldwide have set the standard for instrument longevity and sustained accuracy. Titanium offers the best durability with the least amount of care, and is always a wise investment. But when budgets demand it, the *ShallowCAT* option lets you put more MicroCATs in the water for less money.

**Same Performance,  
Warranty, and Support**
